MONDRIAN
low table

Concerning the use of marble, the biggest novelty regards the new techniques employed in its working, which allows to obtain results of artistic relevance while enhancing the natural veins of the marble. Mondrian low table shows a top in marble Rainforest decorated with "Linfa" Texture 3 finish, hand-crafted in micro relief; this unique engraving exalts the natural veins of the marble, stressing the uniqueness of each slab and giving an organic appearance to this inanimate material. This technique combines the most recent technologies employed in the field of numeric control with the hand finishing skills, thus ensuring the highest precision in the crafting of details, while highlighting the natural features of the material.

This technique combines the most recent technologies employed in the field of numeric control with the hand finishing skills, thus ensuring the highest precision in the crafting of details, while highlighting the natural features of the material. Unit in wood covered in stainless steel sheet with satin finish, internal parts and back rest with mat lacquered finish (RAL colours). Base and shelf in shaped stainless steel can be lacquered in any of the finish included in the metal finish selection.

ARACEAE
design Gupica

floor Lamp - suspension lamp
Ø32 H.204 cm - Ø25 H.206 cm

Floor lamp in metal with satin Siena-lacquered finish with leaves-shaped directional lights in steel with polished Siena-lacquered finish and linear LED source.

Araceae is an innovative and romantic lighting project which combines its lighting function through the use of ultraslim LEDs and the botanic shape with a thin and elegant line, adapting to contemporary contexts thanks to its "minimal" sizes and to its metal surfaces (shiny above the leaves and satin below) available in every colour of the metal lacquer finish selection such as gold, Siena, black nickel, etc. The illuminated leaves can be adjusted in all the directions and can be rotated on the axes of the central stem.
